- 15) E-Chord – Its one more step (Original Mix) – 8:02

Darek Recordings is offering you a big **Christmas edition** with its **seventh reference** and the long awaited "**Aleph Compilation Part Two**". With this one, you'll have the chance to experiment **fifteen different quality tracks** of artists that come from many different horizons. It's once again a totally **international release** and just what you need to **finish this year** with some **amazing tunes**!

Germany is very present in this release with the following artists: **Larsson**, **Miro Pajic** and **Mike Wall** our headliners and three astonishing producers, **Twinpitchers** and **Rene Hamel**, our friends from Magdeburg and the crazy freaky duo **Klartraum**. **Russia** is also represented by the promising duo named **River'n' Sea** and now we move to a totally different place, straight to the **USA** to visit **Donor** in New York! **Italy** is also part of the crew with **Francis** from Cagliari and **Kisk**, the Dj and Producer from Milan.

Here comes the warmth of **South America** with **Bubbaloop** and **Juan Manuel Diaz**, two young and talented artists from **Argentina** while we're going back to Europe, and especially to visit **France** with the sweet **Unu**!

Now it's time to take a look at **Asia** and more precisely **Japan** with **Bob Rogue**! To finish this project what can be better than someone who represents many countries, so we thought of our friend **E-Chord**, half **Italian** and **Argentinean** currently living and producing in **Berlin**!

Isn't that great to reunite so many **different cultures** and **languages** unified in music and the **discovery of new sounds**? Hope you'll like the productions of these **well known** and for some of them **new and talented artists** united to offer **something different** for the **pleasure of your senses**...

All our **best greetings** to everyone and keep checking out our stuff. Thanks for all the **support** and the **appreciation** that you've showed during this year!

Happy Holidays ;)
